

FLAMIC has been launched in Schio (VI) Italy in 2004.

FLAMIC is a young and dynamic company which is specialized in the production of **dough sheeters** for **bakeries and pastries** whose belts are 500 mmwide (mod. **SF500** and mod. SF500B) and 600 mm wide (mod. **SF600**).

The futuristic design and the high quality of the components used have concurred with *FLAMIC* to show itself on the Italian and international market with a product in a position to conquer and strike the attention of many buyers in short time.

The specialization and the high business flexibility, the designing dynamism and the selection of the suppliers represent the points of force of *FLAMIC*. The general business costs limited to the maximum support an invincible price/quality ratio.

FLAMIC takes part in the main domestic and international exhibitions of the “bakery, pastry and catering” and it exports its dough sheeters in 50 countries in the world.

The dough sheeters with 500 mm wide belts are available in two models i.e.: **SF500** (model with base) and **SF500B** (model for bench) with different belt lengths i.e.: 850 mm, 1.000 mm or 1.200 mm. The inversion of the belt direction takes place through joystick in the **SF500B** model and through joystick and pedal in the SF500 model.

The dough sheeters with 600 mm wide belts is available only in the model with base (**SF600**) and always with different belt lengths i.e.: 850, 1.000, 1.200, 1.400. The **SF600** model is equipped with plates that can be extracted. The inversion of the belt direction takes place through lever and pedal.

After a long designing period the dough sheeters that *FLAMIC* presents on the domestic and international market are rewarding who has worked with costancy, seriousness and professionalism.

Our Products:

- DOUGH SHEETERS SF500B

- > Painted steel structure (on request stainless steel is also possible)
- > Safety covers device in accordance with CE regulations
- > Precise regulation on thickness of sheet by a graded scale
- > Scrapers can be removed very easy
- > Variable speed between infeed and discharge belts assure regular dough sheet
- > Belts can be raised when the machine is not in use to obtain more free space
- > Reversal rolling belts by joystick.

- DOUGH SHEETERS SF500

- > Painted steel structure (on request stainless steel is also possible)
- > Safety covers device in accordance with CE regulations
- > Precise regulation on thickness of sheet by a graded scale
- > Scrapers can be removed very easy
- > Variable speed between infeed and discharge belts assure regular dough sheet
- > Belts can be raised when the machine is not in use to obtain more free space
- > Reversal rolling belts by joystick and/or by pedal.

- DOUGH SHEETERS SF600

- > Painted steel structure (on request stainless steel is also possible)
- > Safety covers device in accordance with CE regulations
- > Precise regulation on thickness of sheet by a graded scale
- > Scrapers can be removed very easy
- > Variable speed between infeed and discharge belts assure regular dough sheet
- > Belts can be raised when the machine is not in use to obtain more free space
- > Reversal rolling belts by joystick and/or by pedal.

- DOUGH SHEETERS FAST700

AUTOMATIC DOUGH SHEETERS

- > Stainless steel machine
- > Easily programmable with Touch Screen
- > Monochromatic Touch Screen with a colour option
- > Automatic or manual operation
- > The A frame is mounted on wheels and is therefore fully mobile
- > Automatic flour duster
- > Automatic dough spooling unit
